

## FPP ROADMAP

<b>FPP 2012 Release 2</b>			
Status:		<b>Planned</b>	Planned release launch: February 2012
Project	Type	Application	Description
A11-045	Base	CMS	The Editor in the CMS will be replaced to resolve browser compatibility issues introduced in the new versions of browsers that have been launched by the different suppliers in recent months.

<b>FPP 2011 Release 2</b>			
Status:		<b>Planned</b>	Planned release launch: March 2012
Project	Type	Application	Description
A11-001	Base	Framework	Email Notifications are either embedded in applications or set partly or wholly by Application Parameter. Provide a feature that allows all emails to be fully controlled by Application Parameter, possibly also using html templates.
	Base	Membership	Provide a mechanism for Administrators to track when a user last used the site, including an update to Search and provide a CSV download of results.
	Base	Membership	Provide users with an automated reminder to update their personal profile.
	Base	Membership	WG Officer navigation improvement.
	Base	Membership	Provide an Advanced Search feature in Membership for both Organizations and Persons including the facility to define which fields appear in the results in the administration section
	Base	CMS	Allow the pre-selection of the default template for html pages and remove unwanted or unused templates.
	Add-on	Documents	Currently document status must be updated on a per document basis. Introduce a feature to allow document sets (via Documents or Meetings) to be processed in bulk.
	Add-on	Meetings	Provide a mechanism to allow the order of the columns in the Meeting List to be changed, via the Meeting List Configuration option.

<b>FPP 2011 Release 3</b>			
Status:		<b>Planned</b>	Planned release launch: Q2 2012
Project	Type	Application	Description
A10-038	Add-on	Voting	A <b>new</b> Add-On module for the FPP with the following main characteristics: - A flexible, generic design avoiding the rules of any specific voting system (e.g. Quorum) - User confidentiality is maintained at all times - Votes are simple Yes/No/Abstain votes and anybody can participate - Vote details can be downloaded to allow off-line calculations by an Administrator.

<b>FPP 2012 Release 4</b>			
Status:		<b>Planned</b>	Target release launch: Q2-Q3
Project	Type	Application	Description
A11-051	Base	Membership	Integration of FPP and Mailing Lists (Listserv)

<b>FPP 2012 Release 1</b>			
Status:		<b>Frozen</b>	Target release launch: Q2-Q3
Project	Type	Application	Description
A11-036	Add-on	Meetings	Meeting titles will be added to the Administrator Registration screen and Participants List screen (similar to the Meeting Document List)
	Base	Meetings	A mechanism will be provided for creating recurring meetings
	Base	Meetings	The possibility to send an automated email reminder N days before a meeting is due to start will be provided
	Base	Meetings	The sending email address for automated emails will have its own value (separate from the general administrator email address)
	Base	Meetings	The link for the ICS file (meeting appointment for your personal calendar) will be renamed more meaningfully
	Base	Meetings	In the create new meeting function the time zone will be detected automatically, according to the country selected
	Add-on	Documents	A way of easily identifying late meeting documents (according to a pre-selected parameter) will be provided
	Base	Documents	The Abstract field will be renamed to Keyword. This is to encourage the field to be used for Keywords to facilitate easier document searching
	Add-on	Documents	The file naming convention for the various forms of individual and bulk download options will be aligned for greater clarity
	Base	Membership	A checking mechanism will be provided when creating a new organization to check if it already exists (or an organization with a similar name already exists)
	Base	Membership	Additional icons will be added to the View person and View organization screens to reduce the number of clicks needed. The icons will be at the top of the screen to avoid the need for scrolling
	Base	All	Where any screen displays action icons they will be moved to the top of screen to avoid the need for scrolling

	Base	Membership	The need to update mandatory fields in a Person record when changing a person's status to STOPPED etc. will be suppressed.
	Base	Membership	Navigation in the Rights Management section will be improved to reduce the number of clicks needed.
	Base	Membership	A new application parameter will be added to control the number of people that appear in the WG Officer list
	Base	Membership	A trap mechanism will be added to the Get Login ID function to check that when users have said that they have changed company this is actually the case
	Base	Framework	A CSV download feature will be provided for access rights that shows the current settings for all rights for all roles for all modules
	Base	Membership	The WG Navigator will be modified so that it is possible to define the order in which Working Groups appear (currently alphabetical only)
	Base	Framework	Date related information from the Search filters will be added to the breadcrumb trail results in Documents and Meetings

<b>FPP 2012 Release 3</b>			
Status:	Frozen	Target release launch: Q3	
Project	Type	Application	Description
A11-037	Base	Documents	Provide a dynamic relationship between the Latest version icon and the setting in Search for "Only Display last revisions"
	Base	Documents	Provide an active link in document list to the document (e.g. like we find in the meetings list)
	Base	Documents	Widen the "Doc ID" field in New Document screen (or find a better way of showing whole document ID)
	Base	Documents	Withdrawn documents to be suppressed from general availability
	Base	Membership	Add the "Show Link" feature to Membership (Organization List, Person List and WG List) to allow context sensitive urls to be used elsewhere
	Base	Framework	Change the position of My Profile to improve the visibility of Search Filters.
	Base	CMS	Improve differentiation between public and private Site maps

<b>FPP 2012 Release 5</b>			
Status:	Frozen	Target release launch: TBD	
Project	Type	Application	Description
A11-049	Base	Various	email Notification services - improvements to content and format management

<b>FPP Release Candidates</b>			
Status:	CR *)	Target release launch: TBD	
Project	Type	Application	Description
TBD	Add-on	Documents	relationship between document type and WG to be reversed while keeping same mechanism for managing Allowed WGs.
TBD	Add-on	Documents	Improved field management in Document Administration> Document Types.
TBD	Add-on	Documents	when creating a Meeting document and the WG is selected (Navigator or otherwise) then only meetings of that WG shall appear in the new document screen.

\*) CR = Change Requests is for features under evaluation

Regarding type of modules see more details see: <http://www.forapolis.com/website/portfolio/fpp.aspx>
